

ADX MAXIMUS

THE EPIC BASS SHAKER

Feel every rumble of the Formula One race car or shattering explosions while watching your favorite sporting events, movie or playing the latest video game. The RIVA Maximus elevates your media viewing experience so you feel every moment of the action.

Designed by the creator of the original bass shaker, now redesigned using FEA (finite element analysis) technology to maximize not only the performance but expand the tonality of the vibrational force and impact while minimizing the extraneous noise. Our advanced electromagnetic design provides the highest sensitivity to deliver more amplifier choices and usage options. Grab onto your seat, hold on and experience all that you are currently missing!

TECH SPECS

- Frequency Range: 20 - 100Hz
- Impedance: 4 ohms
- Power Handling: 50W continuous

DIMENSIONS

- H: 65.5 mm (2.58 in)
- L: 140 mm (5.51 in)
- D: 140 mm (5.51 in)
- Weight: 1.56 kg (3.72 lbs)

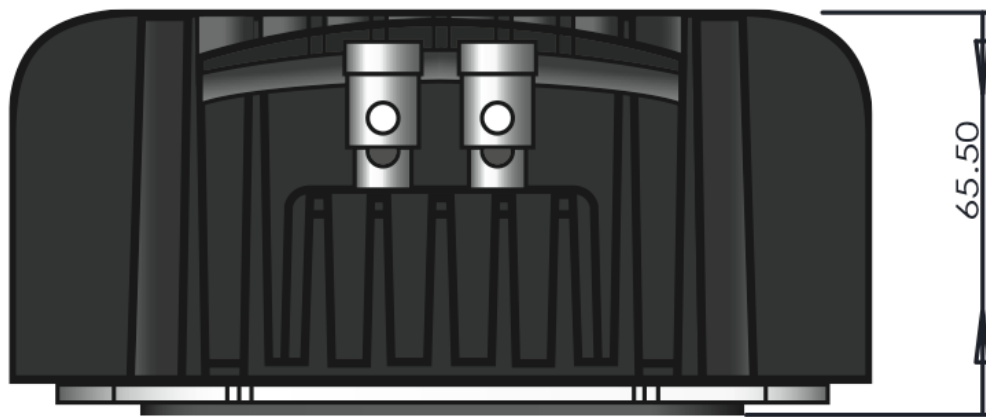

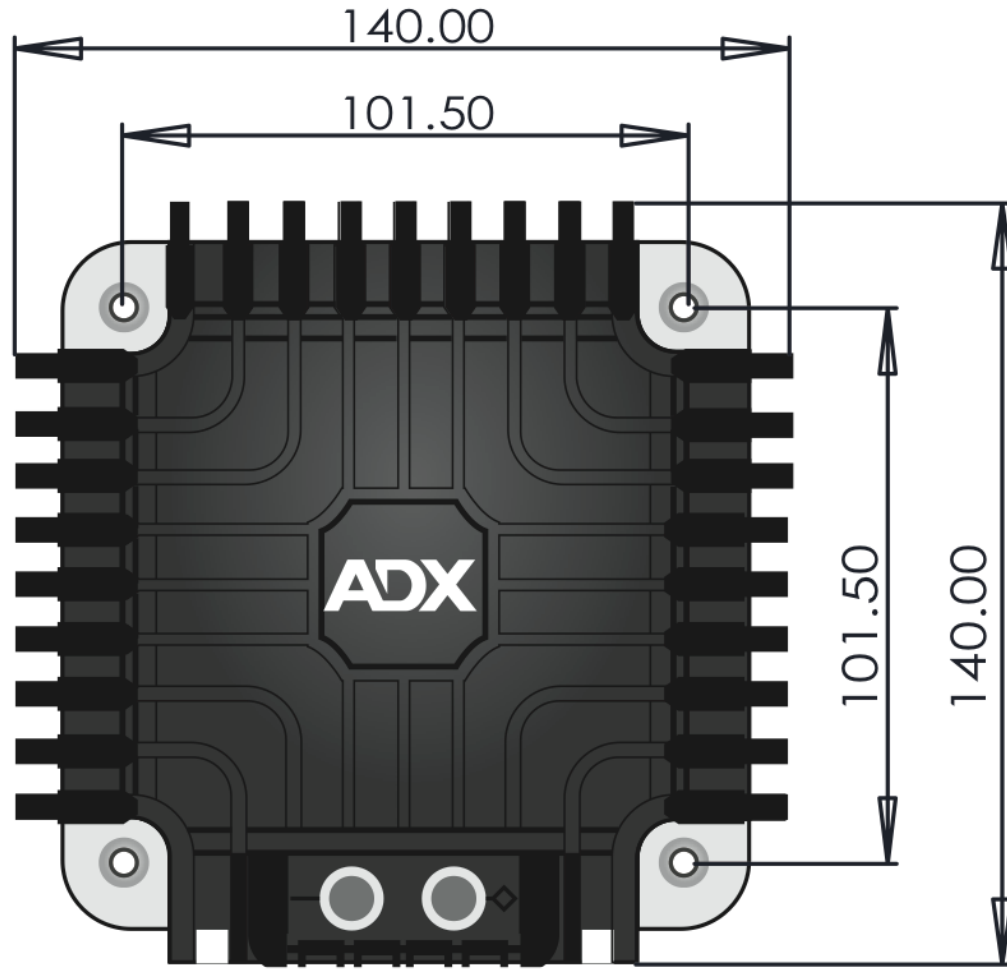

MOUNTING DIMENSIONS

101.5 mm (4.00 in) x
101.5 mm (4.00 in)
